All the latest news from us…

Welcoming Jess…

We're very happy to welcome our newest team member Jessica Dexter.

Jess has slotted into the team like she has always been here and with 22 years in the industry, brings a wealth of knowledge, and some fabulous baking.

A bit from Jess

"I have recently joined the team at Bottesford Dental practice as a nurse. I felt nervous starting a new practice but everyone make me feel at ease straight away with their calming natures and I now feel a valued part of the team family. I love working here and I'm looking forward to getting to know the lovely patients who are registered here"

Patient Reviews…

*****

"If you're looking for 5-star Dentistry then look no further, Furqan and his team at Bottesford Dental Practice are amazing and always have the time to ensure you're at ease and leave with a smile"

"I highly recommend Bottesford Dental. I have had first class treatments every time I have been. I personally see Tasha Patel whom explains exactly what needs to be done. Takes care, time and patience in my treatments. A big thank you from me"

"Always receive an excellent reception and treatment from each of the dental staff"

"I have had a lot of quite invasive treatment over the years and was a VERY nervous patient, but Furqan has been very calm, patient and very understanding and I am proud to say that I am not a nervous patient anymore"

Coming soon…

Jen and Liga are heading over to Little Toes nursey, Bottesford in November to give an oral health talk to the children.

If you know of anywhere that would like an Oral health talk, let us know and we can arrange for Jen and Liga to pay a visit.

Nervous?

We understand that visiting the dentist can feel daunting- and we're here to make your experience as comfortable as possible.

- Headphones- listen to your own music or podcast
- Ceiling screens- relax and watch calming videos
- Time to talk- we'll explain everything before we begin
- Your pace- you can let us know if you need a break

Dental Tip…

After brushing our teeth, we should not be rinsing with water. If we just spit out and leave the excess toothpaste it ensures the fluoride remains on the teeth, continuing to be effective.

Staff day out…

Once a year, Furqan treats the team to a staff day out; it's great to be able to spend time away from work together; chatting about general life and not just teeth!! The team headed to Nottingham, for an escape room experience and then headed to The Ivy for some lunch.
Thank you, Furqan.

8 years!!!

Sam and Ashleigh, what a milestone! Celebrating 8 years with Bottesford Dental. An amazing milestone and we're so grateful for all the hard work and dedication. Here's too many more!
